Description

WATERBLADE WATERFALL.

This is just one example from a wide range of sizes from 600mm long with 25mm lip to 1500mm long with up to 230mm lip. THIS ONE is to be built into a wall with the lip coming out the top front. The wall is finished with render or tiles which covers the front of the box. The wide lips can be mounted on the back of the wall and go right thru the wall. The inlet is thru the back, a rock trap may be added for \$30.

A Waterblade waterfall will complete your back yard oasis. Waterblades are designed for strength and ease of installation into a new or existing brick or stone wall and are available with rear or bottom water feeds for convenience at installation. Waterblades are also available in a variety of lengths giving you the flexibility to design a unique water feature that is a true highlight in your back yard. For a spectacular feature in your backyard why not combine a few Waterblades at different heights and lengths and make a statement, there is nothing more peaceful and relaxing than listening to the sound of running water! Fibre-Optic lighting kits are also available to suit all Waterblade models for a sensational display of colour to enhance your water feature in the evening. If you need to a pump to feed your Waterblade, WE have the right pump for you. features & Benefits 'Clear Lip' construction (except with fibre-optic lighting) leaving no painting or hiding of unsightly coloured lips in your feature wall. The Clear Lip enables the Waterblade

to blend in to any wall regardless of its composition - even if you wish to tile around the Waterblade on your feature wall! Available in convenient lengths; 600mm, 900mm, 1200 & 1500mm. (Other lengths may be available upon request) Rainblade "rain effect" waterfalls also available upon request Choice of rear or bottom feed models Optional fibre-optic lighting available for a spectacular evening display of colour
